Three-times winner of the Eric Hosking Award for BBC Wildlife Photographer of the Year, Vincent Munier takes us on a tour of this silent, frozen world. From the Far East to the Wild West, via the craggy peaks of the European Alps, we encounter swans, cranes, eagles, chamois, foxes, and many other animals in the hush of their stunning, snowbound habitats. Shadows, shapes, contours, and the occasional flash of color are all that reveal the creatures huddled into the snow and braced against the wind, quite in their element in the elements.
