This delightful gift book combines witty adages and quotations with humorous, animal-theme photographs as a way for sons and daughters to express affection to their fathers. A typical picture caption reads: "By the time a man realizes that maybe his father was right, he usually has a son who thinks he's wrong." This lighthearted photo-essay volume is perfect as an extra gift or super-elaborate "greeting card" on Father's Day, Dad's birthday, or any other occasion for remembering Dad.
