This massive work represents the labour of hundreds of lawyers and scholars throughout the world. It is undoubtedly the most extensive and thorough examination of comparative law on the international level ever published. It incorporates not only detailed descriptions of the legal systems of more than 150 countries but, above all, thoroughly documented comparative analyses of the main issues in civil and commercial law and related issues worldwide. Consisting of 17 volumes in total, each volume is divided into 6-20 chapters written by relevant specialists. Rather than delaying publication until the volume is complete, every chapter is published on completion in paperback form. Once a year several of these chapters, not necessarily of the same volume, are sent to subscribers in single instalment. As soon as all the chapters in a given volume are ready, they are indexed, updated where necessary and sent to subscribers in high-quality hardback form.
