著者:Louis Fisher

出版者:University Press of Kansas

出版时间:2007-09-21

装帧:Paperback

isbn:9780700615346

Nearly three decades after its initial publication, Louis Fisher's durable classic remains at the head of its class--a book that Congressional Quarterly called "as close to being indispensable as anything published in this field." This newly revised and updated fifth edition emphatically reinforces that sterling reputation. Fisher dissects the crucial constitutional disputes between the executive and legislative branches of government from the Constitutional Convention through President Clinton's impeachment battles to the recent controversies over President Bush's conduct as commander in chief. He ventures beyond traditional discussions of Supreme Court decisions to examine the day-to-day working relationships between the president and Congress. To scholars, this book offers a comprehensive examination of the institutions and issues of public law. For practitioners, general readers, and students of American government, it demonstrates how constitutional issues shape and define current events.
