isbn:9780743470520

The prosecutor had a photograph that showed defendant Sandy Jones with a smoking gun in her hands. And the prosecutor had an eyewitness who said she saw Sandy Jones shoot the man the instant the photograph was taken. But did Sandy Jones actually commit murder? The Smoking Gun is a true story, a murder mystery that takes you inside the actual trial. Famed defense attorney Gerry Spence invites you behind the scenes, into the judge's chambers, and into the conversations that formed the strategies for each day of the trial until the truth is revealed: Whose smoking gun really did the killing? How does the justice system really work? The Smoking Gun is a searing firsthand indictment of the law and the good old boys who wield its power.
