This second edition of New York Family Law is designed specifically for undergraduate students and paralegal education students. It covers both matrimonial law (annulment; separation; divorce; and equitable distribution of marital property) and Family Court proceedings, such as family offenses, child protection, termination of parental rights, and adoption. Features of the text include thought-provoking discussion topics; Basics Boxes, which introduce each type of Family Law litigation;

Practice Tips; Chapter Review Questions; and Chapter Assignments. New York forms are integrated throughout and the text offers many new websites to aid in computer-assisted legal research projects. New to this edition is the expanded coverage of ethics and divorce, a new section on interviewing skills, greater coverage of inter-jurisdictional conflicts, and a discussion of permanency planning in the Child Protection and Adoption chapters
