The litigation of neglect and abuse of the elderly in assisted living and nursing home facilities is unlike any other personal injury litigation. The second edition of *Nursing Home Litigation: Pretrial Practice and Trials* has been significantly expanded and will provide you with a detailed step-by-step look at how nursing home cases should be handled. The book's chapters are organized in a way that will help you with your case from pretrial to trial. The first chapter will give you tips and techniques for writing the demand letter. The following chapters provide insight for both the plaintiff's attorney and defense attorney on topics such as interviewing older witnesses, preparing staff for deposition, demonstrative evidence, voir dire, opening and closing arguments. Also included is a FREE CD-ROM of actual depositions of nurses, administrators, directors of nursing and upper management in nursing homes.
