This indispensable volume provides a complete and authoritative discussion of the current ICC rules and their application. The Annotated Guide contains an article-by-article analysis of the arbitration rules, including a comparison with the text of the relevant section of the 1975 rules, along with comprehensive indexes for tracking the rules of the court, and advice for arbitrators. Each annotation contains an explanation of the rationale that drove the revision or incorporation, as well as the expected effect on ICC arbitration practice. Where the rules are influenced by other established arbitration rules, appropriate cross-references appear.
