For courses in Native American Literature, Freshman Composition, History of Native Americans, and American Literary Survey. This anthology includes some of the best and class-tested works of Native American Literature--with a good representation of major authors, geographic dispersion, gender balance, and a variety of genres. Its illustrative and popular material promotes meaningful interaction among students, and a deeper appreciation of different themes and approaches. Complete works that have become classics in the field, combined with ones from the modern era, make this collection rich in historical and theoretical context.
