'Now an ambitious new publishing project, the Clay Sanskrit Library brings together leading Sanskrit translators and scholars of Indology from around the world to celebrate in translating the beauty and range of classical Sanskrit literature...Published as smart green hardbacks that are small enough to fit into a jeans pocket, the volumes are meant to satisfy both the scholar and the lay reader. Each volume has a transliteration of the original Sanskrit text on the left-hand page and an English translation on the right, as also a helpful introduction and notes. Alongside definitive translations of the great Indian epics - 30 or so volumes will be devoted to the "Mahabharat" itself - Clay Sanskrit Library makes available to the English-speaking reader many other delights: The earthy verse of Bhartrihari, the pungent satire of Jayanta Bhatta and the roving narratives of Dandin, among others. All these writers belong properly not just to Indian literature, but to world literature' - "LiveMint". 'The Clay Sanskrit Library has recently set out to change the scene by making available well-translated dual-language (English and Sanskrit) editions of popular Sanskrit texts for the public' - "Namarupa". "The Great Hall" relates some of the most seminal events of the epic, culminating in the famous game of dice between the Pandavas and the Kauravas. The Pandavas, happily settled in Indraprastha, enjoy one glorious success after another. Yudhishthira, after erecting the most magnificent hall on earth, decides to perform the Royal Consecration Sacrifice, which will raise his status to that of the world's greatest sovereign. His brothers travel far and wide and conquer all known kingdoms. Yet just when the Pandavas are beginning to seem invincible, Yudhishthira mysteriously gambles everything away in a fateful game of dice to his cousin Duryodhana. It is co-published by New York University Press and the JJC Foundation.
