装帧:Paperback

isbn:9781118745083

For more than thirty years, the beautifully illustrated *Architecture: Form, Space, and Order* has been the classic introduction to the basic vocabulary of architectural design.

This classic visual reference helps both students and practicing architects understand the basic vocabulary of architectural design by examining how form and space are ordered in the built environment. Using his trademark meticulous drawing, Professor Ching shows the relationship between fundamental elements of architecture through the ages and across cultural boundaries. By looking at these seminal ideas, *Architecture: Form, Space, and Order* encourages the reader to look critically at the built environment and promotes a more evocative understanding of architecture.

作者介绍:

Francis D.K. Ching is a registered architect and Professor Emeritus at the University of Washington in Seattle. He is the bestselling author of numerous books on architecture and design, all published by Wiley. His works have been translated into over eighteen languages and are regarded as classics for their renowned graphic presentation.
