isbn:9780313331640

A comprehensive biography. F. Scott Fitzgerald is primarily known for his masterpiece, "The Great Gatsby". He had fallen out of favour by the time of his death in 1940, while Ernest Hemingway attained worldwide fame. But there has been a tremendous renewal of interest in his works, and he is one of the most important writers in the American canon. While there are other biographies of Fitzgerald, this work meets the need of school students for a concise, accessible, and informative survey of Fitzgerald's life and career. Because Fitzgerald drew extensively from his own experiences, his life is especially helpful in illuminating his works. This book approaches his life and writings chronologically. It explores how his parents and upbringing shaped his values, how he creatively presented his life experiences in his fiction, and how he participated in and influenced American culture during the Jazz Age of the 1920s. The volume closes with a timeline and bibliography. Part of the "Greenwood Biographies" series. Discusses Fitzgerald's life in relation to his writings. Places Fitzgerald and his works within their historical and cultural contexts. More accessible than scholarly studies of Fitzgerald.
