出版时间:2006-11-20

装帧:Paperback

isbn:9781405112949

This anthology presents a selection of works that illustrates the traffic between British

poetry and classical literature. * Gives readers the classical background they need in order to really appreciate British poetry. * Divided into two halves - the first half presenting a selection of the best British poems, and the second presenting relevant classical works in translation. * Notes and introductions highlight the connections between British works and their classical forebears.
