著者:Cotterell, Arthur

出版者:Trafalgar Square

出版时间:2000-12

装帧:Pap

isbn:9780712666916

Never before have the mythologies of Greece, Rome, Persia, India and China been encompassed in a single volume, despite the fact that the first four have much in common through their Indo-European ancestry. Arthur Cotterell shows how much more can be understood about "classical mythology" by comparison and contrast of its five major traditions. Fascinating indeed are the parallels he signals between, for instance, Greek and Indian myths. Just as amazing are the different attitudes towards such fundamentals as heroism, love and death. Lavishly illustrated with over 200 original illustrations, The Pimlico Dictionary of Classical Mythologies is an indispensable handbook for both students and general readers.
