著者:Belsey, Catherine

出版者:Palgrave Macmillan

出版时间:2007-4

装帧:HRD

isbn:9781403993199

In this exciting new introduction to Shakespeare, Catherine Belsey takes traditional tales as a starting point to argue against the cultural materialists who claim Shakespeare's iconic status is no more than an accident of history. Each chapter shows how one of Shakespeare's best-known plays retells with a difference stories familiar both then and now. Belsey goes on to put forward new readings, teasing out the enigmas that constitute these texts and the interpretations they have inspired.
