装帧:Pap

isbn:9781561841745

Throughout history, throughout most of the world, psychopaths have received a bad rap. That is quite understandable since almost all of the world's religious and social philosophies have little use for the individual except as a tool to be placed in service to their notion of something else: "God" or the "collective" or the "higher good" or some other equally undefinable term. Only rarely, such as in Zen and Tibetan Buddhism, and some school of Existentialism, is the individual considered primal. Here, finally, is a book which celebrates, encourages and educates the best part of ourselves -- the Psychopath.
