著者:Roe, Nicholas

出版者:Palgrave Macmillan

出版时间:2002-9

装帧:Pap

isbn:9780333962763

Taking into account developments in historical and ecological criticism, and incorporating fresh research into poetry and politics in the 1790s, the second edition of "The Politics of Nature" enlarges and updates Nicholas Roe's study of Romanticism. Hitherto marginal figures are restored to prominence, and there is new material on William Wordsworth's radical years. The book includes the full text of John Thelwall's essay on animal vitality with commentary, exploring how ideas of nature revolution and radical science were entwined.
