出版者:Random House Inc

出版时间:2000-11

装帧:Pap

isbn:9780375724527

In *Some Horses*, Tom McGuane animates the wide prairie, the ranches where cattle roam and cutting horses are trained, and the packed coliseums in which these horses compete for prestige and prize money. Best of all, McGuane brings to life the horses he has known, celebrating the unique glories that make each of them memorable.

McGuane's writing is infused with a love of the cowboy life and the animals and people who inhabit that world where the intimate dance between horse and rider is as magical as flight--well beyond what the human body could ever discover on its own.
