First-to-Market: the only high-yield exam prep for the Pediatric Boards! - 4 Star Doody's Review!. 'This book provides a complete review for the pediatric board exam for students, residents, and practitioners who are studying for certification or

recertification. I intend to use it for my next recertification in pediatrics' - Doody's Review Service. Written by veteran "First Aid" editor Tao Le and a team of fellows, residents, and junior faculty from Johns Hopkins, UCSF, Stanford, and Harvard Universities who have just taken the exam, this resource covers what to expect on the exam, how to apply and succeed, and must-know high-yield facts. It includes clinical images, x-rays, CT, and MRI scans. It can also be used to prep for the in-service training exam residents are required to take every year.
