出版者:Taylor & Francis

出版时间:2006-10

装帧:HRD

isbn:9780824729714

Addressing one of the most commonly encountered conditions seen by the dermatologist, this source analyzes the pathophysiology, evaluation, diagnosis, clinical features, and control of acne. With full-color illustrations, this source delves into the available treatment options for difficult cases of acne and scarring and provides expert discussions of management regimens including topical and systemic therapies, laser treatments, and new medications.
