This brand-new, full-color textbook presents both maternity and pediatric nursing at an appropriate level for LPN/LVN students. The text uses a nursing process framework and emphasizes the LPN's specific role. Throughout the text are features that help students develop critical thinking skills and apply content to practice - such as nursing procedures, nursing care plans, clinical pearls, patients' and caregivers' stories, critical thinking questions, cultural snapshots, family teaching tips, and over 500 illustrations. Each chapter is followed by an integrated study guide/workbook with NCLEX[registered]-style questions, 'Critical Thinking: What Would You Do?' scenarios including dosage calculations, and Study Activities including Internet activities.
