Prepared by internationally recognized members of The Cervical Spine Research Society Editorial Committee, the Fourth Edition of this best-selling volume is the most

comprehensive, current, and authoritative reference on the cervical spine. It provides state-of-the-art coverage of basic and clinical research, diagnostic methods, and medical and surgical treatments, bringing together the latest thinking of the foremost orthopaedic surgeons, neurosurgeons, neurologists, rheumatologists, radiologists, anatomists, and bioengineers. Chapters cover anatomy, physiology, biomechanics, neurologic and functional evaluation, and radiographic evaluation and address the full range of pediatric problems, fractures, spinal cord injuries, tumors, infections, inflammatory conditions, degenerative disorders, and complications. More than 1,100 illustrations are included.
