[Biochemistry of Atherosclerosis\\_ 下载链接1](#)

著者:Kaur, Sukhinder C. 编

出版者:Springer Verlag

出版时间:2006-5

装帧:HRD

isbn:9780387312521

This book covers many aspects of atherogenesis, with particular emphasis on lipid and lipoprotein metabolism. It includes all aspects of the regulation of cholesterol homeostasis and the importance of each pathway. Also explored are the roles of nuclear hormone receptors on lipid and lipoprotein metabolism and their complex roles in atherogenesis. The book further discusses how genetic studies can help understand the complexities that mediate these aspects of atherogenesis.
