出版者: Elsevier Science Health Science div

出版时间: 2003-5

装帧: Pap

isbn: 9780750654128

Presents real-life cases and discusses new ethical issues emerging with rapid advancing neonatal technology. Addresses the sanctity of life versus the quality of life and illustrates relevant legal cases to highlight how the law protects both medical staff and children. Geared to assist health professionals with babies born before 24 weeks. Softcover.
