出版时间:2011-2

装帧:HRD

isbn:9780195178159

Nausea is a complex sensation that results from the interaction of certain fixed biological factors, such as gender, with changeable psychological factors, such as anxiety. This is the first book to provide a complete, in-depth explanation of what we know about nausea, along with the latest research results on its causes and treatment. As it is the product of long-term collaboration between scientists from the three main approaches to studying and treating nausea-psychology, gastroenterology and physiology-the information this book provides is both comprehensive and well integrated.
