

# Neuropsychology for Occupational Therapists

[Neuropsychology for Occupational Therapists\\_下载链接1\\_](#)

著者:Grieve, June I.

出版者:Blackwell Pub

出版时间:2008-4

装帧:Pap

isbn:9781405136990

The third edition of this successful textbook is written primarily for undergraduate

students of occupational therapy, and for practitioners working in the field of cognitive rehabilitation. Those in other health and related professions, who work in the field of brain injury, will gain an understanding of how cognition and its impairment can affect behaviour. The content of the second edition has been expanded and updated to reflect advances in neuropsychology, and to incorporate an evidence based consideration of occupational therapy practice. Written in a clear and user-friendly style, this book provides a basic guide to normal cognition. The impact of cognitive impairments upon everyday living is explored and guidance is given upon the planning and implementation of rehabilitation to optimise occupational performance.
