isbn:9781401899547

This comprehensive, user-friendly book provides the theoretical knowledge and skills content you need to successfully complete a nursing assistant certification exam. The book meets OBRA guidelines and prepares you to work in a variety of long-term care

settings or sub-acute units in the hospital. A major goal of this resource is to help you develop an understanding of the principles of safe and effective care of residents in long-term care. Special emphasis is placed on residents' rights, nutrition and hydration, restorative care, resident mobility, and maintaining a safe environment. From Doody's Book Review "This book, written to meet the needs of persons who wish to become CNAs and work in long term care (LTC), provides core concepts and clearly explains the basic principles of nursing care of the elderly. Weighted Numerical Score: 100 - 5 Stars!"
