出版时间:2007-3

装帧:Pap

isbn:9781416000358

This full-color, how-to text covers all aspects of phlebotomy, with complete coverage of equipment, safety procedures, arterial blood gases, point of care testing, and a special emphasis on practical phlebotomy skills. Procedures are outlined in a detailed

storyboard format, pairing each step with a full-color photo to help students understand the equipment and techniques of routine venipuncture, butterfly venipuncture, skin punctures, and more. Includes workbook sections for review, study questions, competency checklists, and a revised mock certification exam.

Extensive review materials, or "workbook sections," are provided within the text. Study Questions, as well as Certification Exam Preparation questions, are provided at the end of each chapter.

Provides new photos of procedures and equipment. Reviews and updates all safety-related information and procedures. Adds in-depth discussion of phlebotomy in special populations. Updates and expands discussion of HIPAA confidentiality issues. Revises and updates certification exam review questions, as well as the mock certification exam.
