著者:McPherson, Richard A., M.D./ Pincus, Matthew R., Ph.d.

出版者:Elsevier Science Health Science div

出版时间:2006-8

装帧:HRD

isbn:9781416002871

Commended, Basic and Clinical Sciences, BMA Awards 2007

The book has been required reading in clinical pathology since 1908. Its comprehensive coverage gives you an in-depth understanding of lab test selection and interpretation of results. A new full-colour layout makes reference much easier. New chapters on laboratory regulations, nutrition, point-of-care testing, bioterrorism, proteomics, microarray

analysis, and the human genome project - as well as a completely new section on cancer testing and meticulous updates from cover to cover - put all the latest, most essential knowledge at your fingertips.
