isbn: 9780867206913

The most up-to-date, comprehensive reference available in the bone marrow field. Utilizing the experience of more than twenty oncology nurses, it addresses current challenges: to influence both ethical and administrative problem solving, to help lower costs, to improve patients' understanding of problems and risks, and to participate in decision making for research studies. This text prepares nurses for an even larger role in the continuing application of marrow transplantation.
