装帧:Pap

isbn:9780195330885

Epilepsy in our Words features 68 personal accounts of seizure activity from people with epilepsy that illustrate the wide range of experiences associated with seizures and living with epilepsy. Many have had epilepsy for years, and their accounts are heartfelt and realistic. An introductory section explains epilepsy and different seizure types from a medical perspective. An index helps readers focus on particular symptoms and other specific aspects of seizures, such as seizure warnings and triggers. ABOUT THE SERIES: With the Brainstorms series, one of the world's leading authorities on epilepsy, Dr Steven C. Schachter, has gathered together the personal testimonies of patients, family members, and caregivers to create a poignant and gripping series of books on this misunderstood and often devastating disorder.
