出版者:Lippincott Williams & Wilkins

出版时间:2005-2

装帧: Pap

isbn: 9781405104494

Designed as a quick read for both students on a hematology/oncology rotation and others who want to know more about the specialty, Blueprints Hematology and Oncology covers the essentials that every practitioner will need to know. Pocket-sized and practical, this book covers the most common conditions students are likely to encounter. It focuses on the essential content students need to know during a rotation allowing for a fast, easy read. Twenty-five multiple-choice review questions are included to help students test their understanding of the subject. The book also features a valuable appendix on career and residency opportunities. Also included are sections on medications and their toxicities and common hematological and oncological emergencies. Perfect for medical students -- physician assistants, nurse practitioners and related health professionals will also find Blueprints valuable.
