Now in its Second Edition, this interactive health assessment tool reinforces assessment skills and concepts covered in textbooks, videos, and labs. Each module

corresponds to a body system with modules specifically designed for assessing special populations. Within each module, you'll find 5 different types of interactive learning exercises: structure and function exercises with labeling and animations, analysis of data exercises, communication exercises, performing physical assessment exercises, and NCLEX(R)-style quizzes. Feedback is provided including rationale for correct answers. Audio and video clips clarify concepts of assessment and anatomy and physiology. Available formats include WebCT, Blackboard, and CD-ROM. Windows Compatible
