Commended in the Cardiology category at the British Medical Association Book Awards 2008

* This fifth edition of Lecture Notes: Cardiology has been thoroughly revised and updated and remains a firm favourite with students for its: Strong focus on the clinical approach Full-colour illustrations throughout including Doppler images, clinical photographs, ECG traces and flow charts More comprehensive coverage of congenital heart disease Thorough coverage of the cardiology curricula. The succinct and topical content of this book means that it will appeal to medical students, as well as junior doctors on foundation programmes and studying for higher examinations.
