著者:Nail, Steve L. (EDT)/ Akers, Michael J. (EDT)

出版者:Springer Verlag

出版时间:2002-6

装帧:HRD

isbn:9780306467455

This text focuses on development, manufacture, and commercialization of pharmaceutical protein dosage forms. The text envelops and emphasizes GMP attributes of quality, safety, purity, and strength. Each author provides practical, proven approaches and methods to achieve quality protein dosage forms on a commercial scale. No other book on protein goes into such practical detail on the requirements, and how to meet them, for developing, manufacturing, and gaining regulatory approval of protein dosage forms.
