isbn:9780781761659

This new addition to The 5-Minute Consult Series is a clinically oriented quick-consult reference for pain management. More than 150 conditions associated with pain and concomitant mental health diagnoses are thoroughly and concisely presented in the

famous fast-access 5-Minute Consult format. Each entry briefly describes the condition and presents succinct, bulleted facts under boldface headings: basics (epidemiology, risk factors, pathophysiology, etiology, prevention, associated conditions); diagnosis (signs and symptoms, history, physical exam, lab tests, imaging, differential diagnosis); treatment (medications, surgery); and follow-up (prognosis, issues for referral). Each entry includes ICD9-CM and CPT codes. Two Tables of Contents—one alphabetical and one organized by organ system—allow quick look-up of topics.
