This masterwork is universally acknowledged as the most comprehensive, authoritative reference in the field of otolaryngology - head and neck surgery. Its volumes encompass the entire body of core knowledge as well as the most cutting-edge developments within every otolaryngologic subspecialty. A multitude of preeminent contributing experts ensure that the coverage is complete, up to date, and clinically relevant. This 4th edition features significant changes to the editorial team as well as sweeping updates to reflect all of the latest advances in basic science and clinical practice. What's more, it is now available not just as a 4-volume set, but also as a dynamic, continuously updated, fully searchable web site and as a breakthrough e-dition multivolume set/web access package.
