Confidently evaluate and treat virtually any traumatic eye injury you may encounter in practice...from chemical injuries to blast injuries to perforating injuries. This new resource provides all the hands-on how-to's you need to stabilize an ocular trauma

patient, diagnose their problem, manage it if possible, and make a referral when necessary. With its practical advice, many informative illustrations, and instructive videos on DVD, Ocular Trauma is your ideal resource for managing all forms of ocular injury.

Hundreds of photographs and line drawings show you what to look for and how to proceed. Videos on DVD demonstrate everything from handling initial presentations to performing surgical interventions to managing follow-up visits. Real-world case studies clarify how to overcome difficult challenges and achieve the best outcomes. Highly practical, focused chapters enable you to locate and apply information quickly.
