出版者:Blackwell Pub

出版时间:2007-9

装帧:HRD

isbn:9781405167161

This unique book covers the major cases one might encounter in diagnosing,

managing and treating haemophilia. It will provide a practical and informative guide to the broad range of topics concerning both bleeding and clotting disorders. Haemophilia and Haemostasis: A Case-based Approach to Management is divided into major chapter sections by disorder. Each chapter contains questions and cases that were originally submitted to the online Haemostasis-forum (previously Haemophilia-forum). Cases and questions associated with each disorder are presented alongside practical answers from a wide range of international contributors. Practical, clinical questions, answered by the world's leading experts All case studies gathered from the Archives of the Haemostasis/Haemophilia Forum – 1997-2006 Covers haemophilia, Von Willebrand Disease and many other bleeding and clotting disorders Over 80 case studies with practical answers To reflect varying practice, controversial areas will be clearly marked and discussed throughout Whether you are a practising clinician or trainee in haematology, working in the fields of coagulation, haemostasis or thrombosis, or any other health care professional working in a haemophilia centre, this book will provide practical clinical answers to aid in your day to day patient care.
