isbn:9780130495389

For undergraduate/graduate-level courses in Laboratory Management. This text, written by 20 clinical laboratory professionals, provides a concise summary of the most common clinical laboratory management topics with focused objectives,

corresponding questions, practical exercises, internet and bibliography resources and case studies. This book emphasizes the need for the entry-level laboratory practitioner to be aware of the financial, personnel-related, operational, and marketing issues affecting the laboratory in order to successfully perform and compete in the rapidly changing health care environment.
