Insightful case studies span all aspects of cosmetic eyelid surgery, including complications, in this unique text. Dr. Mauriello presents his techniques, including newer ones, developed during his more-than-20 years' experience with blepharoplasty.

The first three chapters-preoperative evaluation of patients undergoing cosmetic eyelid surgery, surgical principles of cosmetic upper and lower eyelid blepharoplasty, and complications of cosmetic eyelid surgery-are written by Dr. Mauriello and include alternative techniques by several experts. Subsequent chapters on surgical controversies and adjunctive office procedures are written by contributors with editorial commentary by Dr. Mauriello.
