This special edition of "Stedman's Medical Dictionary, 27th Edition" features a 128-page, four-color veterinary insert, as well as the MediClip Veterinary Anatomy collection on CD-ROM. This edition provides veterinary students and professionals with fast and easy access to pertinent information with a timely and no-nonsense approach. The content includes information pertaining to canine, feline, equine, small animal, and exotics. The features of the insert include veterinary-specific images, tables, and charts, normal reference ranges for laboratory values, normal ranges for common measurements in cats and dogs, toxic agents and plants/antidotes. The

insert also includes numerous drug dosages from the popular formulary by Dana Allen, "Handbook of Veterinary Drugs, 2nd Edition".
