isbn:9780781741309

The gold-standard physical medicine and rehabilitation text is now in its Fourth Edition--with thoroughly updated content and a more clinical focus. More than 150 expert contributors--most of them new to this edition--address the full range of issues in contemporary physical medicine and rehabilitation and present state-of-the-art patient management strategies, emphasizing evidence-based recommendations. This edition has two separate volumes on Physical Medicine and Rehabilitation Medicine. Each volume has sections on principles of evaluation and management, management methods, major problems, and specific disorders. Treatment algorithms and boxed lists of key clinical facts have been added to many chapters.
