出版者:Lippincott Williams & Wilkins

出版时间:2003-8

装帧:平装

isbn:9781405103527

If you are wondering how the pathophysiology principles you are studying will apply to real life patients, Blueprints Notes & Cases—Pathophysiology: Renal, Hematology and Oncology has just what you need—basic science concepts tied to clinical cases. This

book offers high-yield, concise basic science content presented in a logical template. Each topic features a case presentation followed by thought questions and a basic science review. Thumbnails and key points provide a quick review of the essential information. Multiple-choice questions at the end of each case allow you to test your knowledge. Blueprints Notes & Cases—Pathophysiology: Renal, Hematology and Oncology is perfect for medical students. Use it during your coursework to aid in understanding application of principles, then review again as you prep for exams. Physician assistants, nurse practitioners, and related health professionals will also find Blueprints Notes & Cases valuable.
