装帧:Pap

isbn:9780130941824

For beginning students in LPN/LVN programs-Introduction to Nursing and Fundamentals of Nursing courses. Can also be used as a handy reference in Medical Surgical Nursing and throughout nursing school. This handbook is designed to help students learn the essential elements of topics that are central to their successful functioning as a professional practical or vocational nurse. A dependable companion throughout nursing education and beyond, it will help students keep feelings of being overwhelmed and frustrated to a minimum.
