isbn:9780781726559

This thoroughly revised Second Edition builds on the success of the first as the definitive text for neuropsychiatry. The book is divided into three sections, with the

third on syndromes and disorders. Emphasis on treatment is provided throughout the text and is DSM-IV-compatible. Coverage includes neurobehavioral disorders, selection and interpretation of neurodiagnostic procedures, and the full spectrum of therapies. New to this edition are eight chapters and the incorporation of psychopharmacology into specific disease chapters.
