isbn:9781416002703

This practical manual provides thorough explanations and step-by-step guidance for

34 procedures that can be performed in less than an hour in a standing sedated patient without the use of special equipment. Three-dimensional, anatomical line drawings, high-quality photographs, and a companion DVD visually demonstrate key concepts and techniques.

This well-illustrated resource features more than 65 3-D anatomical line drawings and over 100 high quality photographs that visually clarify important concepts and procedures.

Includes thorough explanations and step-by-step guidance for 34 procedures with information on surgical indications, equipment needs, relevant anatomy, step-by-step outline of the procedure, drugs used and the proper dosage, and possible complications.

A companion DVD features more than 30 video clips that demonstrate key procedures.

The DVD also includes customizable client aftercare instruction sheets.
