Now available as a multimedia e-dition, the new 5th Edition of Wall and Melzack's Textbook of Pain, revised under new editorial leadership, and with a host of new, multidisciplinary international contributors covers virtually every aspect of pain. Read all the latest about the neurophysiology, psychology, and assessment of every type of

pain syndrome. Describes today's full range of pharmacologic, surgical, electrostimulative, physiotherapeutic, and psychological management options. The e-dition offers the book plus a website that is continuously updated for the life of the edition. All drug information is linked to Mosby's Drug Consult, all references are linked to PubMed, and all illustrations and tables can be downloaded into PowerPoint slides for presentations. * Covers all aspects of the physiology, psychology, assessment, and management of pain. * Features contributions from a "who's who" of authorities in pain medicine, ensuring that the book is the most current, reliable, and complete core reference in the field. PART - Wall & Melzack's Textbook of Pain e-dition Box - 9996009246, PART - Wall & Melzack's Textbook of Pain e-dition Pincard Booklet - 9996009122 SUBJECT: Anesthesiology
