出版时间:2006-12

装帧:HRD

isbn:9780443069512

Understanding anatomical structures is one thing. Knowing how to dissect them is another. More effectively than any other resource, this user-friendly manual demonstrates how to successfully dissect the trunk, head and neck, pelvis and perineum, and upper and lower extremities. Extensively class tested and reviewed, it is proven to reduce the time you spend in dissection...without skimping on the details that you need to know!

Page references to Drake et al.: Gray's Anatomy for Students, Netter: Atlas of Human Anatomy, 4th Edition, and Moses et al.: Atlas of Clinical Gross Anatomy point you towards outstanding visual guidance on anatomical structure and function. STUDENT CONSULT access lets you browse through the complete contents of the book online...review cadaver dissection photographs before going into the lab...test your knowledge with review questions and answers...and follow "integration links" to

related bonus material from Gray's Anatomy for Students, Atlas of Clinical Gross Anatomy, and other books.
