This new educational and clinical reference provides a comprehensive discussion of general medical conditions and associated pathologies confronting athletes, coaches, and athletic trainers of all levels. Featuring NATA Educational Competencies, it covers evaluation techniques and equipment, pharmacological principles, complete coverage of all body systems and conditions, and special populations. Red flags for serious or life-threatening conditions are highlighted throughout, as well as implications for practice and participation in sports and competition. An accompanying DVD provides 230 minutes of video displaying narrated procedures, animations of important concepts, and self-assessment exercises designed to reinforce the skills and information presented in each chapter of the book. \* Hundreds of illustrations detail anatomy, physiology, evaluation, pathology, and treatment. \* Vivid, full-color pathology photos in an 8-page insert, as well as photos included throughout the book, help readers visualize and compare confirmed diagnoses for signs, symptoms, and assessment. \* Pharmacological content provides a

comprehensive overview of medical treatment and associated outcomes while also pointing out possible adverse effects. \* Learning objectives and key points, as well as a wide range of tables and boxes, a full glossary, and appendices help the reader extract and pinpoint information quickly. \* Red flags integrated within each chapter highlight critical information for safe and effective patient care. \* Consistent format for presentation of pathological conditions includes a brief description of the condition, signs and symptoms, referral and diagnostic tests, differential diagnosis, treatment, lifespan considerations, and prognosis.
